STATE BOARD OF MEDICAL EXAMINERS

IN THE MATTER OF THE SUSPENSION :
OR REVOCATION OF THE LICENSE OF :

Administrative Action

Harvey Grable, M.D.
License No.: MA 48411

**ORDER GRANTING
UNRESTRICTED LICENSURE**

TO PRACTICE MEDICINE AND SURGERY
IN THE STATE OF NEW JERSEY :
_____ :

This matter was opened to the New Jersey State Board of Medical Examiners ("the Board") upon receipt of information that respondent, Harvey Grable, M.D., License No. MA 48411, had failed to submit his biennial renewal in or about 1995, causing his license to practice medicine and surgery in New Jersey to be automatically suspended pursuant to N.J.S.A. 45:9-6.1, and that he had entered into a Consent Order with the New York Board in March 2000, wherein respondent admitted to failing to maintain medical records which accurately reflected his evaluation of two patients involved in motor vehicle accidents ("the New York Order"). The New York Order imposed a thirty-six (36) month period of suspension, one month active and the remainder to be stayed and served as a period of probation, and respondent additionally agreed to be precluded from testifying as a medical expert in any physician malpractice proceeding. A Final Order of Discipline was filed in New Jersey on July 26, 2001, pursuant to

N.J.S.A. 45:1-21(g), as respondent's license was suspended in another jurisdiction for conduct which would give rise to discipline in this State.

On February 23, 2005, respondent appeared with counsel before a Committee of the Board and petitioned for unrestricted licensure in New Jersey. Respondent asserted that he limited the number of patients he saw to redress the recordkeeping issue. He also stopped testifying several years ago and stopped examining patients for the purpose of litigation. He further testified that he has not acted as an expert for the purposes of litigation in the past four or five years, and he is not treating patients.

Respondent attested that his probationary period ended in New York, the jurisdiction where his recordkeeping was at issue, on April 30, 2003, and the only restriction that currently remains on his medical license in New York is that he is restricted from testifying as a medical expert in a physician malpractice proceeding. He testified that his license is

unrestricted in Florida. His license in New Jersey has been suspended for over four years.

The Board having determined that the within Order is adequately protective of the public health, safety and welfare,

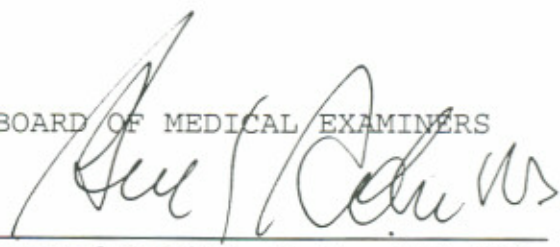

IT IS ON THIS ^{15th} DAY OF AUGUST, 2005,

ORDERED:

1. Respondent Harvey Grable, M.D. is hereby granted an unrestricted license to practice medicine and surgery in the State of New Jersey.

STATE BOARD OF MEDICAL EXAMINERS
